February 2012

TO ALL INTERESTED PARTIES:

The Department of Health and Senior Services is pleased to provide the enclosed Directory of Grant Programs for the State Fiscal Year 2013. This directory provides a comprehensive listing of grant funds available from the Department. If additional grant funds become available during the year, notice of these funds will be posted on the Department's internet web site as an addendum to this Directory and can be found at <http://www.state.nj.us/health/grants/directory.shtml>.

The Department of Health and Senior Services awards grants from State appropriations, federal awards, and other funding sources. Since the award and appropriations of these funds do not always conform to the State Fiscal Year, the information included in this directory is based on the anticipated grant programs that will become available during the period July 1, 2012 through June 30, 2013.

The directory is divided into separate programs, which provide specific services through grant awards. Many programs are funded jointly by State, federal and other funds. The information identified in the directory is without reference to the source of funding.

There are certain funds awarded within the grant category that have been excluded from this directory. They represent formula grants which, by law, are distributed to specific agencies (i.e., counties and municipalities); special legislation to provide funding to a specific agency; and disbursement of funds by other than grants awards. Please contact the Grants Management and Review Program at 609-633-1581 to provide additional information on these programs or by fax at 609-633-1705.

To receive additional copies of this directory, please contact the Grants Management and Review Program. Copies can be downloaded from Department's web site at www.state.nj.us/health.

Sincerely,

Mary E. O'Dowd, M.P.H.
Commissioner

N.J.S.A. 52:9EE-1

GRANT PROGRAM NO. 13-BIR-1

TYPE OF AWARDS TO BE ISSUED:

Cost-reimbursement Grants

PURPOSE FOR WHICH THE GRANT PROGRAM FUNDS WILL BE USED:

The goals of this program are (1) to encourage investigators to undertake research on neural protection, repair and regeneration after traumatic brain injury; (2) to encourage individuals to undertake research on the effectiveness of clinical interventions for traumatic brain injury; and (3) to enable researchers with novel scientific and clinical ideas to test them and develop pilot data needed to develop a programmatic area of research that can be supported by additional funding from the National Institutes of Health, and other funding sources

AMOUNT OF MONEY IN THE GRANT PROGRAM:

The NJCBIR will fund Individual Research Grants with an emphasis on the objectives and priorities stated within the NJCBIR Guidelines. Applicants are encouraged to apply for a one-year, two-year or three-year award. Maximum funding is up to \$150,000 per year for direct costs and 20% applicable indirect costs. Each funding award within the two/three-year period will be contingent upon the submission and successful review of a comprehensive Progress Report. All Progress Reports must be favorably reviewed by an independent scientific merit review panel and recommended to the NJCBIR for continued funding. Senior scientists and young investigators may serve as principal investigator. If the applicant is a fellow, s/he must submit a letter of support from the laboratory's senior scientist, as well as two other appropriate letters of reference. Awards will begin on or about June 1, 2013. The NJCBIR reserves the right to distribute funds among the grants in this program 13-BIR1 as well as among the NJCBIR's other grant programs 13-BIR2, 13-BIR3, 13-BIR4. The NJCBIR reserves the right not to fund any grant in this program 13-BIR1 to the maximum amount, or not to fund any grant in this program at all. NOTICE OF GRANT AVAILABILITY

NAME OF GRANT PROGRAM:

New Jersey Commission on Brain Injury Research
Programmatic Multi-Investigator Grant

STATUTORY AUTHORITY:

NJCBIR P.L. 2003, C: 200,
N.J.S.A. 52:9EE-1

GRANT PROGRAM NO. 13-BIR-2

TYPE OF AWARDS TO BE ISSUED:

Cost-reimbursement Grants

PURPOSE FOR WHICH THE GRANT PROGRAM FUNDS WILL BE USED:

The goals of this program are (1) to encourage investigators to undertake research on neural protection, repair and regeneration after traumatic brain injury; (2) to encourage individuals to undertake research on the effectiveness of clinical interventions for traumatic brain injury; and (3) to enable researchers with novel scientific and clinical ideas to test them and develop pilot data needed to develop a programmatic area of research that can be supported by additional funding from the National Institutes of Health, and other funding sources.

AMOUNT OF MONEY IN THE GRANT PROGRAM:

The NJCBIR will fund Programmatic Multi-Investigator Project Grants that supports collaborative research among at least 3 investigators from different laboratories with an emphasis on traumatic brain injury. Preference will be given to proposals that demonstrate complementary approaches to addressing a research question through multidisciplinary investigations (e.g., molecular, genetic, physiologic, behavioral and pharmacologic privileges). The goal of this mechanism is to enhance in-depth mechanistic analysis and promote translational research. During proposal review, if one sub-project does not receive a favorable recommendation for funding and is not considered necessary for effective implementation of the entire program, the remaining sub-projects, which must be a minimum of 3, may be considered for approval independent of the failed sub-project. Furthermore, if a Multi-Investigator Project grant does not receive an overall favorable recommendation, individual sub-project Principal Investigator(s) that were favorably reviewed may be asked to submit a revised Budget and Specific Aims for their project one time only within 30 days. The revised project(s) will then be considered for approval as an Individual Research Grant by the Independent Scientific Merit Review Panel.

Collaborations are encouraged among independent laboratories within the same institution, or among laboratories from different institutions. Applicants are encouraged to apply for a one-year, two-year or three-year award. Maximum funding is up to \$600,000 per year for direct costs and 20% applicable indirect costs. Awards will begin on or about June 1, 2013. The NJCBIR reserves the right to distribute funds among the grants in this program 13-BIR2 as well as among the NJCBIR's other grant programs 13-BIR1, 13-BIR3, 13-BIR4. The NJCBIR reserves the right not to fund any grant in this program 13-BIR2 to the maximum amount, or not to fund any grant in this program at all. Up to \$6,500,000 will be made available for all programs (13-BIR1, 13-BIR2, 13-BIR3, 13-BIR4) NJCBIR's other grant programs 13-BIR1, 13-BIR2, 13-BIR4.

ELIGIBLE APPLICANTS MUST COMPLY WITH THE FOLLOWING REQUIREMENTS:

1. Terms and Conditions for the Administration of Grants
2. General and specific Grant Compliance requirements issued by the Granting Agency.
3. Applicable Federal Cost Principles relating to the Applicant

GROUP OR ENTITIES WHICH MAY APPLY FOR THE GRANT PROGRAM:

All qualifying institutions in the State of New Jersey may apply for Programmatic Multi-Investigator grants under this program. A qualifying institution is defined as any academic institution, research organization, public or private institution or other entity, located in the State of New Jersey, with demonstrated capability to conduct grant funded research, and specifically approved by the vote of the Commission, but in no case can an individual be a qualifying research institution.

QUALIFICATIONS NEEDED BY APPLICANT TO BE CONSIDERED FOR A GRANT:

Principal investigators must be affiliated with a New Jersey State academic institution, research organization, public or private agency or other entity with demonstrated capability to conduct research responsibly. Unaffiliated individuals will not be funded. Individuals of any nationality or citizenship status may apply, provided they are employed by or affiliated with a qualified New Jersey State organization/institution. The principal investigator must be located within a qualifying institution in the State of New Jersey. Proposals must identify a principal investigator within each research site as well as an overall Principal Investigator (Program Director) who is responsible for

ensuring collaboration among all investigators. Additionally, the Program Director will write the Overall Program Rationale section that justifies the need for a multi-investigator project. There must be compelling reasons for applying as a program, not simply reflecting matters of geography, relatedness or use of common equipment.

APPLICATION PROCEDURES:

An application for a Grant is to be submitted electronically and upon receipt of a letter of intent, inquiry or concept paper sent to the address listed below. Cost-reimbursement Grant

PURPOSE FOR WHICH THE GRANT PROGRAM FUNDS WILL BE USED:

The goals of this program are (1) to encourage investigators to undertake research on neural protection, repair and regeneration after traumatic brain injury; (2) to encourage individuals to undertake research on the effectiveness of clinical interventions for traumatic brain injury; and (3) to enable researchers with novel scientific and clinical ideas to test them and develop pilot data needed to develop a programmatic area of research that can be supported by additional funding from the National Institutes of Health, and other funding sources

AMOUNT OF MONEY IN THE GRANT PROGRAM:

The NJCBIR will fund Pilot Research Grants with an emphasis on encouraging (1) experienced investigators to pursue a new direction in brain injury research, or (2) new investigators who want to gather preliminary data for larger research projects.

Suitable projects include feasibility studies; secondary analysis of existing data; self contained research projects; development of research methodology; development of new research technologies; and investigation of novel scientific ideas, model systems, tools, agents, targets and technologies that have the potential to substantially advance brain cell regeneration and repair.

Applicants are encouraged to apply for a one-year or two-year award. Maximum funding is up to \$75,000 per year for direct costs and 20% applicable indirect costs. Awards will begin on or about June 1, 2013. The NJCBIR reserves the right to distribute funds among the grants in this program 13-BIR4 as well as among the NJCBIR's other grant programs 13-BIR1, 13-BIR2, 13-BIR3. The NJCBIR reserves the right not to fund any grant in this program 13-BIR4 to the maximum amount, or not to fund any grant in this program at all. Up to \$6,500,000 will be made available for all programs (13-BIR1, 13-BIR2, 13-BIR3, 13-BIR4)

ELIGIBLE APPLICANTS MUST COMPLY WITH THE FOLLOWING REQUIREMENTS:

1. Terms and Conditions for the Administration of Grants
2. General and specific Grant Compliance requirements issued by the Granting Agency.
3. Applicable Federal Cost Principles relating to the Applicant

GROUP OR ENTITIES WHICH MAY APPLY FOR THE GRANT PROGRAM:

All qualifying institutions in the State of New Jersey may apply for Pilot Research grants under this program. A qualifying institution is defined as any academic institution, research organization, public or private institution or other entity, located in the State of New Jersey, with demonstrated capability to conduct grant funded research, and specifically approved by the vote of the Commission, but in no case can an individual be a qualifying research institution.

QUALIFICATIONS NEEDED BY APPLICANT TO BE CONSIDERED FOR A GRANT:

Principal investigators must be affiliated with a New Jersey State academic institution, research organization, public or private agency or other entity with demonstrated capability to conduct research responsibly. Unaffiliated individuals will not be funded. Individuals of any nationality or citizenship status may apply, provided they are employed by or affiliated with a qualified New Jersey State organization/institution.

APPLICATION PROCEDURES:

An application for a Grant is to be submitted electronically and upon receipt of a letter of intent, inquiry or concept paper sent to the address listed below. Eligible agencies are to submit grant applications through the Department's System for Administering Grants Electronically (SAGE). Eligible agencies must register at the following internet website address: www.sage.nj.gov. The Request for Applications (RFA) can be obtained by writing or calling the office listed below. A Letter of Intent must be filed with NJCBIR office no later than August 1, 2012.

PURPOSE FOR WHICH THE GRANT PROGRAM FUNDS WILL BE USED:

The goals of this program are (1) to encourage investigators to undertake research on neural protection, repair and regeneration after traumatic brain injury; (2) to encourage individuals to undertake research on the effectiveness of clinical interventions for traumatic brain injury; and (3) to enable researchers with novel scientific and clinical ideas to test them and develop pilot data needed to develop a programmatic area of research that can be supported by additional funding from the National Institutes of Health, and other funding sources

AMOUNT OF MONEY IN THE GRANT PROGRAM:

Postdoctoral Fellowships are generous three-year salary awards that may be active up to and including the 8th postgraduate year. The beginning stipend levels are based on years of relevant research experience since obtaining the doctoral degree, starting at \$40,000 for 0 years experience, then \$42,000 for 1 year experience, etc. For each experience level, salaries for the next 2 years increase each year by \$2,000 (for example: 0 years experience; Year 1 = \$40,000, Year 2 = \$42,000, Year 3 = \$44,000). Applicants may apply by no later than their 6th year after their degree award. In addition to the stipend, there will be an annual research allowance of \$7,500 and an annual travel budget of \$1,500. Additional support includes a fringe benefit supplement at 12% of each annual stipend amount and indirect costs for the institution at 20% of each annual total amount. Institutions may supplement stipends, but not with other full-time fellowship awards, or other NJCBIR monies. A candidate may not apply for a NJCBIR Postdoctoral Fellowship and a NJCBIR Individual Research grant in the same grant cycle. If a first-year Fellow applies for and is awarded a NJCBIR Individual Research Grant, funding will be contingent upon cancellation of the second or third year of the fellowship. Non-research activities, such as teaching or clinical care, may not occupy more than 10% of the fellow's time. All Postdoctoral Fellows must submit a yearly Progress Report accompanied by a letter of support from the fellow's mentor. Second or third year fellowship funding is contingent upon the successful review of the progress report and a recommendation from the mentor. An Evaluation Form must be submitted to the NJCBIR office each year for two years following termination of the Fellowship grant.

Graduate Student Fellowships are three-year awards of \$27,500 per annum. They provide an annual stipend of \$24,000, and consistent with institution policy, an annual research allowance of \$2,000, and an annual travel budget of \$1,500. Up to \$6,000 of additional funds will be provided for tuition. No part of this award may be used for institutional overhead. Institutions may supplement stipends, but not with other full-time fellowship awards or other NJCBIR monies. Applicants may not serve as teaching assistants while holding a NJCBIR Graduate Student Fellowship. Second-year and third-year fellowship funding is contingent upon the successful review of a comprehensive progress report and a recommendation from the mentor. An Evaluation Form must be submitted to the NJCBIR office each year for two years following termination of the Fellowship grant.

Successful fellowship applicants are offered the opportunity to participate in an approved brain injury techniques course. The NJCBIR will make available up to \$4,000 for a grantee to attend a brain injury techniques course at an approved University that has the necessary experience and database on the use of standard brain injury models and devices. Grantees are responsible for making all necessary travel and course participation arrangements and payments. Reimbursements will be made to those who provide proof of course completion and expense receipts. Awards will begin on or about May 31, 2013. The NJCBIR reserves the right to distribute funds among the grants in this program 13-BIR3 as well as among the NJCBIR's other grant programs 13-BIR1, 13-BIR2, 13-BIR4. The NJCBIR reserves the right not to fund any grant in this program 13-BIR3 to the maximum amount, or not to fund any grant in this program at all. Up to \$6,500,000 will be made available for all programs (13-BIR1, 13-BIR2, 13-BIR3, 13-BIR4)

QUALIFICATIONS NEEDED BY APPLICANT TO BE CONSIDERED FOR A GRANT:

Postdoctoral Fellowships - Candidates of outstanding quality must hold a Ph.D., and/or M.D., or equivalent graduate degree. Appropriate degrees must be awarded prior to activation of award. Candidates must be accepted for postdoctoral training under the supervision of an appropriate mentor at a qualifying academic research institution in New Jersey.

Graduate Student Fellowships - Applicants must be full-time graduate students in residence in a proposed course of study directly related to regeneration and repair of the damaged brain. Students must begin study in the semester following activation unless special permission is received prior to activation date. The NJCBIR prefers to support graduate student candidates who have completed the first year of graduate study and are concentrating on research projects at least 80% of their time.

NOTICE OF GRANT AVAILABILITY

NAME OF GRANT PROGRAM:

New Jersey Commission on Spinal Cord Research
Exploratory Research Grant

STATUTORY AUTHORITY:

NJCSCR Fund Chapter 201 P.L. 1999 NJSA 52:9E-1

GRANT PROGRAM NO. 13-SCR-6

TYPE OF AWARDS TO BE ISSUED:

Cost-reimbursement Grants

PURPOSE FOR WHICH THE GRANT PROGRAM FUNDS WILL BE USED:

The purpose of the Exploratory Research Grant award is to enable independent investigators to apply their specific expertise to spinal cord research. The award is designed to provide the resources necessary to acquire preliminary data that will allow the successful applicant to obtain continued support from the NJCSCR, NIH, and/or other funding agencies. It is specifically intended to facilitate the application of innovative ideas from other areas of science to the challenges of spinal cord injury and repair.

In addition to scientific merit and relevance, consideration will be given to collaborative proposals that are inter-institutional and/or inter-state in nature. Priority will also be given to investigators outside the field who bring their expertise into spinal cord injury research. Successful applicants will have familiarized themselves with state-of-the-art knowledge necessary to put the proposed study into the appropriate spinal cord context.

In the field of spinal cord injury research, as elsewhere in the biomedical sciences, a constant infusion of new ideas, techniques, and points of view is essential to maintain its vitality, foster discovery and stimulate innovation. Inherent in the concept of innovation is the departure from current thinking or practice. Innovative projects are unlikely to be supported by substantial preliminary data, and for that and other reasons will necessarily be more speculative than conventional projects. These are high-risk, high reward projects that may lead to breakthroughs, the development of novel techniques, agents, methodologies, models or applications, or other insights that could have major impact on the field of spinal cord injury research.

The Exploratory Research Grant Program is intended to provide support for the early and conceptual stages of such investigations. Through the use of the Exploratory Research Grant Program, the NJCSCR will encourage the pursuit of novel scientific ideas, model systems, tools, agents, targets and technologies that have the potential to substantially advance spinal cord injury research and open new areas of inquiry.

Applications for Exploratory Research Grant awards should describe projects that are exploratory and novel, and are clearly distinct from projects typically supported through more traditional mechanisms. These studies should break new ground or extend previous discoveries toward new directions or applications. Appropriate justification for the proposed work can be provided through literature citations, data from other sources, or, when available, from investigator-generated data.

AMOUNT OF MONEY IN THE GRANT PROGRAM:

Two-year non-renewable awards are offered to applicants at a maximum funding level of up to \$100,000 per year including direct and indirect costs, (10% maximum for the latter). All awards are made through one-year contracts. Each funding award within the two-year period will be contingent upon the availability of funds. Second year support for all Exploratory Research Grants is contingent upon the submission and successful review of a Continuation Application. The Continuation Application must be favorably reviewed by an independent scientific merit review panel and recommended to the NJCSCR for continued funding. An Evaluation Form must be submitted to the NJCSCR office after the second and fifth years following termination of an Exploratory Research grant. Awards will begin on or about June 17, 2013. The NJCSCR reserves the right to distribute funds among the grants in this program 13-SCR6 as well as among the NJCSCR's other grant programs 13-SCR1, 13-SCR3 and 13-SCR7. The NJCSCR reserves the right not to fund any grant in this program 13-SCR6 to the maximum amount, or not to fund any grant in this program at all. Up to \$6,000,000 will be made available for all programs (13-SCR1, 13-SCR3, 13-SCR6, 13-SCR7).

ELIGIBLE APPLICANTS MUST COMPLY WITH THE FOLLOWING REQUIREMENTS:

1. Terms and Conditions for the Administration of Grants
2. General and specific Grant Compliance requirements issued by the Granting Agency.
3. Applicable Federal Cost Principles relating to the Applicant

GROUP OR ENTITIES WHICH MAY APPLY FOR THE GRANT PROGRAM:

All qualifying institutions in the State of New Jersey may apply for an Exploratory Research grant under this program. A qualifying research institution is defined as any academic institution, research organization, public or private institution or other entity, located in the State of New Jersey, with a demonstrated capability to conduct grant funded research, and specifically approved by the vote of the Commission, but in no case can an individual be a qualifying research institution.

QUALIFICATIONS NEEDED BY APPLICANT TO BE CONSIDERED FOR A GRANT:

Principal investigators must be affiliated with a New Jersey State academic institution, research organization, public or private agency or other entity with demonstrated capability to conduct research responsibly. Unaffiliated individuals will not be funded. Individuals of any nationality or citizenship status may apply, provided they are employed by or affiliated with a qualified New Jersey State organization/institution.

Postdoctoral & Graduate Student Fellowship Grant

GRANT PROGRAM NO. 13-SCR-3

STATUTORY AUTHORITY:

NJCSCR Fund Chapter 201 P.L. 1999 NJSA 52:9E-1

TYPE OF AWARDS TO BE ISSUED:

Letter of Agreement

PURPOSE FOR WHICH THE GRANT PROGRAM FUNDS WILL BE USED:

The NJCSCR will fund Postdoctoral and Graduate Student Fellowship grants to attract and retain in New Jersey's qualifying academic research institutions talented young scientists who wish to pursue a career in spinal cord regeneration and repair research. All awards will be made to the research institution in the name of the fellow. All proposals are reviewed by a panel of independent scientific experts who are appointed by the NJCSCR. The panel will evaluate candidates on academic qualifications, the scientific merit of the proposed research project and its relevance to the research priorities of the NJCSCR, the qualifications of the candidate's mentor, the adequacy of facilities, and institutional support.

AMOUNT OF MONEY IN THE GRANT PROGRAM:

Postdoctoral Fellowships are three-year awards of \$50,000 per annum. They provide an annual stipend of \$36,000, a research allowance of \$13,000, and a travel budget of \$1,000. No part of the award may be used for institutional overhead or indirect costs. Institutions may supplement stipends, but not with other full-time fellowship awards, or other NJCSCR monies. A candidate may not apply for a NJCSCR Postdoctoral Fellowship and a NJCSCR Individual Research grant in the same grant cycle. If a first-year fellow applies for and is awarded a NJCSCR Individual Research grant, funding will be contingent upon cancellation of the of the fellowship. Non-research activities, such as teaching, may not occupy more than 10% of the fellow's time. All Postdoctoral Fellows must submit a yearly Progress Report accompanied by a letter of support from the fellow's mentor. Second or third year fellowship funding is contingent upon the successful review of the progress report and a recommendation from the mentor.

Graduate Student Fellowships are two-year awards of \$30,000 per annum. They provide an annual stipend of \$25,000, a research allowance of \$4,000, and a travel budget of \$1,000. No part of this award may be used for institutional overhead, or for tuition. Institutions may supplement stipends, but not with other full-time fellowship awards or other NJCSCR monies. Applicants may serve as teaching assistants while holding a NJCSCR Graduate Student Fellowship without special permission. Second year Graduate Student Fellowship funding is contingent upon the successful review of the Progress Report and a recommendation from the mentor.

Successful applicants are offered the opportunity to participate in an approved spinal cord injury techniques course. The NJCSCR will make available up to \$4,000 for a grantee to attend one of the following spinal cord injury techniques courses at: Reeve Irvine Research Center, University of California, Irvine; The Ohio State University; and The W.M. Keck Center for Collaborative Neuroscience, Rutgers, The State University of New Jersey. Grantees are responsible for making all necessary travel and course participation arrangements and payments.

Reimbursements will be made to those who provide proof of course completion and expense receipts. Awards will begin on or about June 17, 2013. The NJCSCR reserves the right to distribute funds among the grants in this program 13-SCR3 as well as among the NJCSCR's other grant programs 13-SCR1, 13-SCR6 and 13-SCR7. The NJCSCR reserves the right not to fund any grants in this program 13-SCR3 to the maximum amount, or not to fund any grant in these programs at all. Up to \$6,000,000 will be made available for all the grant programs (13-SCR1, 13-SCR3, 13-SCR6, 13-SCR7). Funding estimates may vary, and are subject to annual appropriations. Each yearly funding award will be contingent upon the availability of funds. All Postdoctoral and Graduate Student Fellows must submit a yearly Progress Report accompanied by a letter of support from the fellow's mentor. Any change in relationship between the fellow and the mentor, or between the fellow and the host institution will require the submission of a new, competing application by the fellow as opposed to a Progress Report. An Evaluation Form must be submitted to the NJCSCR office for each year for two years following termination of the Fellowship grant.

ELIGIBLE APPLICANTS MUST COMPLY WITH THE FOLLOWING REQUIREMENTS:

1. Terms and Conditions for the Administration of Grants
2. General and specific Grant Compliance requirements issued by the Granting Agency.

3. Applicable Federal Cost Principles relating to the Applicant

TYPE OF AWARDS TO BE ISSUED:

Cost-reimbursement Grants

PURPOSE FOR WHICH THE GRANT PROGRAM FUNDS WILL BE USED:

The NJCSCR will fund research activities that hold the promise of developing effective interventions and cures for paralysis and other consequences of spinal cord injury and disease. All qualifying institutions in the State of New Jersey may apply. Individual Research Grant awards will be awarded to independent investigators with a record of productivity, a demonstrated commitment to spinal cord research, and only for projects that will address significant questions that will advance knowledge in the field. The goals of this program are (1) to encourage independent investigators to undertake research on spinal cord regeneration, recovery and rehabilitation; (2) to encourage scientists who are well-established in other areas to transfer their efforts to spinal cord research; and (3) enable researchers with novel scientific and clinical ideas to test them and develop pilot data needed to seek larger awards from the National Institutes of Health, and other funding sources.

AMOUNT OF MONEY IN THE GRANT PROGRAM:

Applicants are encouraged to apply for a one - three year award. Maximum funding is up to \$200,000 per year including direct and indirect costs, (10% maximum for the latter). NAME OF GRANT PROGRAM:

New Jersey Commission on Spinal Cord Research
SCI Techniques Training Travel Grant

STATUTORY AUTHORITY:

NJCSCR Fund Chapter 201 P.L. 1999 NJSA 52:9E-1

GRANT PROGRAM NO. 13-SCR-7

TYPE OF AWARDS TO BE ISSUED:

Cost -reimbursement Grants

PURPOSE FOR WHICH THE GRANT PROGRAM FUNDS WILL BE USED:

The purpose of the Spinal Cord Injury Techniques Training Travel Grant award is to offer applicants the ability to participate in a spinal cord injury techniques training course located at either Rutgers, The State University of New Jersey, or at the National Institute for Neurological Disorders and Stroke sponsored Spinal Cord Injury Research Training Program held at the Ohio State University. Spinal cord injury techniques training course information: Rutgers, The State University of New Jersey offers a Spinal Cord Injury Research Methods Workshop through the W. M. Keck Center for Collaborative Neuroscience. Scientists and trainees entering the field can participate in an intensive three-day workshop on spinal cord injury research methods to include lectures, demonstrations and hands-on experience in all facets of spinal cord injury research. Three workshops will be offered during 2013. The Ohio State University Spinal Cord Injury Research Training Program is designed for scientists and trainees entering the field who desire in-depth and hands-on training from experts in spinal cord injury research methods. The curriculum will emphasize proficiency in technical skills and understanding of historical background and current spinal cord injury research approaches. The three-week training program is offered during July 2013.

AMOUNT OF MONEY IN THE GRANT PROGRAM:

In order to encourage more spinal cord injury research in the State of New Jersey, and facilitate the most rigorous science possible, the New Jersey Commission on Spinal Cord Research (NJCSCR) is offering a one-time per applicant non-renewable award of up to \$2,999. Each funding award will be contingent upon the availability of funds.

All applicants to this grant program must first apply to the NJCSCR by December 10, 2012 for consideration of funding to attend either training program. The NJCSCR will make a decision to award funding by February 28, 2013. The NJCSCR will issue a letter of commitment to the successful applicant's institution to provide an award of up to \$2,999 in support of his or her attendance at either training program.

Applicants must also apply separately to either training program via the internet. For Rutgers, The State University of New Jersey at <http://keck.rutgers.edu/main>, or to the Ohio State University at <http://sci.osu.edu/> and include a copy of their NJCSCR letter of funding commitment with their application. There is no guarantee of acceptance into either training program. There is no relationship between the NJCSCR and either Rutgers, The State University of New Jersey, or the Ohio State University.

If the NJCSCR grantee is accepted into either training program, he or she must immediately send notice of acceptance to the NJCSCR office in order to initiate payment to his or her institution. It is the responsibility of the New Jersey institution to make payment in full on behalf of the NJCSCR grantee.

If the NJCSCR grantee is not accepted into a training program, it is the responsibility of the applicant to notify the NJCSCR office of this outcome.

Successful grantees are responsible for making all necessary travel and course participation arrangements and payments. Upon completion of the training program, the applicant must submit a copy of the Certification of Completion to the NJCSCR office in order to fulfill the requirements of this award. Reimbursements will be made to those who provide proof of course completion and expense receipts.

Further information on the deadlines for application to either training program can be found via the internet at Rutgers, The State University of New Jersey <http://keck.rutgers.edu> or for the Ohio State University program at <http://sci.osu.edu/>.

The NJCSCR reserves the right to distribute funds among the grants in this program 13-SCR7, as well as among the NJCSCR's other grant programs 13-SCR1, 13-SCR3 and 13-SCR6.
